## Press Release

### Land of the Bighorn (DVD)

Towering canyon walls rise above diverse vegetation ranging from dry desert to ponderosa pine forest. Bighorn sheep and wild horses roam the canyon walls and mountains, while golden eagles and peregrine falcons soar in the air above. Bighorn Canyon National Recreation Area now preserves this result of the Bighorn River's endurance for millennia on what is now the Montana-Wyoming border, slicing a dramatic fifty-one mile canyon into the mountain landscape.

This DVD video captures the essence of Bighorn Canyon and the recreational possibilities available there. In addition to the film, more than fifty historic images from the park's archives have been included in six photo galleries.
