

THE LITTLE CREEK

Enter the magic world of riparian areas where one little creek provides shelter to a host of plants and animals. Beavers find a home, coyotes find a place to drink, and weary birds find a place to rest. People also find the little creek. They make their homes along its banks. But over time the little

creek is mistreated, and the people and animals must abandon it. Through the beautiful prose of Jennifer Ward and the loving illustration of Julie Scott, see what can happen when a group of determined children find the creek and restore it to its original riparian magic.
